

Phil. 102 Introduction to Philosophy

Quiz: Aquinas' Five Ways

Fall 2002 ©2002 OPL

Directions: Match the premisses in *Column 2* with the most appropriate arguments in *Column 1* by placing the number or numbers in the blank spaces provided.

<i>Column 1</i>			<i>Column 2</i>
----- Motion	Argument from		1. To take away the cause is to take away the effect. 2. There are degrees of goodness in different things.
----- Efficient Cause	Argument from		3. Evident to our senses is motion: the movement from actuality to potentiality. 4. Since things are countable, they are finite in number.
----- Necessity	Argument from		5. It is not possible to regress to infinity in efficient causes. 6. Design or purpose is a product of intelligence.
----- Gradation	Argument from		7. There are degrees of being in different things—the more being, the more goodness. 8. The order of the universe cannot be explained by chance, but only by design or purpose.
----- Governance	Argument from		9. Whatever is moved is moved by another. 10. If, for all things, they do not exist at some time, then given infinite time, there would be nothing in existence.
