# Phil. 103: Introduction to Logic
# Quiz: Further Immediate Inferences

Fall 2002  ©2002 OPL

*Directions*: Assume that the given proposition is *true*, perform the required logical operation, and state the resultant proposition. Then *state the resultant truth value.*

Example: What is the converse of "All mass cults are art forms"?
*Answer*: All art forms are mass cults. *Undetermined.*

1. What is the obverse of "**No arctic flora are bromeliads**"?

2. What is the contrapositive of "**Some dragsters are fast cars**"?

3. What is the obverse of "**Some Rothco paintings are meditative works**"?

4. What is the converse of "**Some Wall St. gnomes are accurate forecasters**"?

5. What is the obverse of "**All logicians are really boring people**"?

Be sure you have given the
resultant truth values.      Name _____
