

Phil. 103 Introduction to Logic Assignments

Spring, 2011

1 How to Read the Daily Schedule Version 1.4 (Revised After Spring Break)

Note: The following assignment schedule is subject to revision and is intended to be a general guide to the assignments this semester. The assignment written on the board at the beginning of each class takes precedence over this schedule. As the semester progresses, for the most recent version of our class schedule, check this URI (Internet address):

<http://philosophy.lander.edu/logic/assignment.html>

If an update to the schedule is available, the version number will be a number higher than *Version 1.0*. (For example, the first revision, if there is one, will be labeled *Version 1.1*) In the “Date” column, the number after *M*, *W*, or *F* is the number sequence of the class, counting from the beginning of the semester. *M*, *W*, and *F* stand for “Monday,” “Wednesday,” and “Friday” respectively.

In the “Class Topic” column, the subjects covered by that day’s class are listed, together with important assignments due on that

day, including quizzes and tests. The “Assignment” column lists the day an assignment is assigned, *not* the day the assignment is due. Assignments are due at the beginning of the next class meeting period unless stated otherwise.

The reading assignments refer to the URLs or the Internet addresses of online readings. You may also access the readings by navigating to this URI and following the menus presented:

<http://philosophy.lander.edu/logic/>

This URI is the Homepage for our course. The logic tutorials and other notes are made available by clicking the appropriate course topic in the column to the right entitled “Course Topics.”

Additional help is available with the example online tests, quizzes, and logic links, not listed below in this assignment sheet, but accessible from the Introduction to Logic Homepage.

2 Assignment Schedule Version 1.4 (Revised)

Date	Class Topic	Assignment
02.18 F 17	Forms and Functions of Language Performative Utterances	http://philosophy.lander.edu/logic/form_lang.html http://philosophy.lander.edu/logic/emotive.html
